

```
//For Loop

class Forloop
{
    public static void main(String arg[])
    {
        int a;
        for(a=0;a<=100;a++)
        {
            if(a%20==0)
            {
                System.out.println(a);
            }
        }
    }
}
```

Output:

```
C:\Users\ankus\OneDrive\Desktop\ankush 05>javac forloop.java

C:\Users\ankus\OneDrive\Desktop\ankush 05>java forloop.java
0
